Just keep your phone into the device  
for ultraviolet light to  
kill deadly pathogens and harmful bacteria.

*"Repeated Studies show what accumulates on a mobile phone is germiness worse than what is on the bottom of your shoe." – Deccan Herald (Posted: Jan 13, 2014)*

*"Cell phones found with more bacteria than toilet seat" – Fox news (Posted: Mar 06, 2013)*

*"Mobile phones have 18 times more bacteria than toilet handle" – Mail Online (Posted: Jul 30, 2010)*
